REPORT

For the Year Ending December 31st, 1928.

The Committee has the honour to present the Annual Report and Statement of Accounts for the year 1928.

The Committee records with deep regret the loss the Hospital has sustained by the death of its revered President and desires to express its grateful appreciation of his long, useful and faithful service.

The late Col. Y. G. Lloyd Greame succeeded his father the Rev. Yarborough Lloyd Greame, as president in 1890. For 38 years he took the deepest interest in the development of the Hospital and the comfort and welfare of the patients.

It may be of general interest to note the extent of the activities of the Hospital now as compared with the time of his accession to office:—

1888—9.	Last year.
No. of Patients 88.	In Patients 520.
Out Patients 120.	Visits for Dressings and Medicine 1944.
Total expenditure £323 5s. 10d.	Total expenditure £3631 0s. 0d.

The following extract from the Report of the same year is instructive:—

“The present household staff consists of the matron, the probationer and two servants, instead of the matron and one servant as hitherto; this increase has naturally added to the expenditure in keeping up the Hospital.”

Patrons of the Institution will be gratified to learn that Mr. Yarborough Lloyd Greame has kindly consented to accept the office of President in succession to his grandfather and father.

The Hospital has also lost by death two other active and useful members of the General Committee in Mrs. F. Lowson and Mr. E. B. Taylor.

Mrs. Lowson was for many years a zealous worker and keenly interested in all efforts for the good of the Hospital, whilst her kindly and generous disposition endeared her to all.

Mr. E. B. Taylor was only a member for a short time before the illness, from which he died, put an end to his activities. He had rendered useful assistance in organising village Committees and his loss will be keenly felt.

The Committee also record with regret the death of the late Dr. Hutchinson, for many years a member of the hon.

medical staff, and who in retirement maintained his interest in the Hospital and by his Will bequeathed to it the sum of £500.

The late Mr. Chas. Radford, as a mark of his appreciation, also left the Hospital a legacy of £200.

In spite of the difficult financial position the Committee decided that both legacies be invested in Government Securities.

An outstanding feature of the years' history was the visit paid to the Hospital on September 7th by H.R.H. Princess Mary, accompanied by Viscount Lascelles. The event was, in every way, a specially happy one and the gracious and charming manner in which the Princess visited and spoke to every patient will never be forgotten.

Your Committee has in every way striven to maintain and improve the efficiency of the Hospital.

Following a complaint as to the antiquated nature of the operating table, one of the latest type was at once purchased at a cost of £115, whilst a further sum of £90 was spent on improving the X-ray apparatus. Both these items were charged to the Extension Fund Account.

The financial aspect of affairs is causing great anxiety. The year 1927 ended with a debit balance of £108 and this has increased to £401 on December 31st, 1928.

Subscriptions—thanks chiefly to the splendid services of the lady collectors—have risen to £700.

The village Committees, too, have done excellently and in most cases fully realised their responsibility.

Recognition must also be paid to the great help given year after year by the Amateur Operatic Society which has again given us £100.

All these efforts, however, are inadequate to meet the growing expenditure amounting in the year under review to £3631.

Every possible economy is exercised consistent with maintaining the efficiency of the Hospital and the comfort of the patients. This is shown in the fact that the cost per week per patient has been reduced from over £3 to £2 12s. 6d.

The Committee gratefully acknowledges the interest in the Hospital so widely manifested and the generous assistance so willingly given and in this connection would allude to the splendid work of the Ladies' Linen League. Year after year this organisation provides a liberal supply of linen and thus relieves the Committee of a serious responsibility.

The general usefulness of the Hospital and the great purpose that it serves may be indicated by the following figures :—

In Patients 520	Out Patients 217
Operations 242	Visits for dressings
X-ray Examinations 167	and Medicines 1944

Sincere thanks are due and tendered to the hon. Medical and the Nursing Staffs for their skilful and devoted services and to all who have rendered help.

In conclusion your Committee pleads for more general and more generous assistance.

Responsibilities are increasing, needs are more urgent, the efficiency of the Hospital must be maintained but your Committee is prepared to face the future with courage and confidence feeling assured that its efforts will be appreciated and the call for more and yet more help will not be made in vain.
